

Compact Reversible Worklight Spotlight Rechargeable

As a professional high quality Compact Reversible Worklight Spotlight Rechargeable manufacturer, Carelite is a dedicated factory who designs and produces LED Work Light Jobsite Spotlights. All our lights are combined by the most durable materials and highest craftsmanship, in prior to packing up, all of them have undergone high and low temperature, vibration, shock and aging test so that the end user have an infallible and long lasting

product under any harsh condition.

Product Description

This Carelite **Compact Reversible Worklight Spotlight Rechargeable** has a wide angle flood light on one side and a long shooting spotlight on the other. The portable magnetic max 1000 lumens area floodlight is very handy and versatile, you can fix it with the hidden metal hooks, or by the 360 degree pivoting magnetic base, or on a tripod, and moreover the worklight has a power bank function.

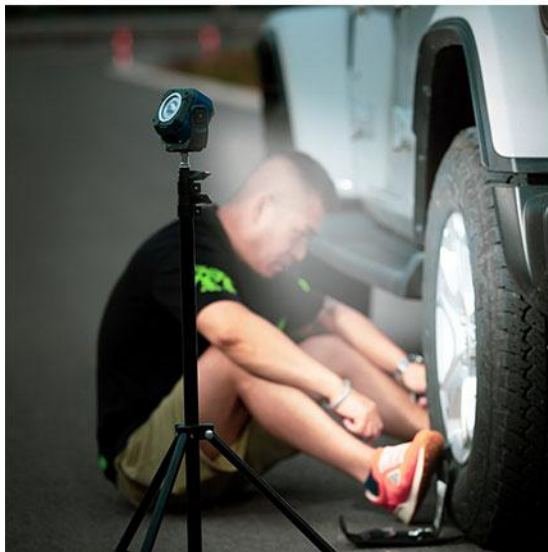

With its compact design, high lumen output and tough built features, it can be used as a cordless jobsite light, long distance shooting spotlight, inspection light, drop light, camping lantern, work light and temporary power outage backup for mechanics, technicians, hikers, campers and anybody who works whether indoors or outdoors.

Integral with a 3 feet USB-C cable for easy charging at any 5.0VDC USB output port at home, in office or in your car.
